RyazSMU STORY

The University's story officially began in 1943 when Moscow Medical Institute of the Ministry of Health of the RSFSR was established on the basis of the 3rd and 4th Moscow Medical Universities.

In 1949 Ryazan widely celebrated a 100th anniversary of Academician I.P. Pavlov, Ryazan-born famous scientist and the first Russian Nobel Prize. To commemorate the fellow countryman, residents of the city addressed the country's government with the initiative to found a medical university in Ryazan.

The initiative was supported and in 1950 Moscow Medical Institute was moved from Moscow to Ryazan and became known as Ryazan Medical Institute named after Academician I.P. Pavlov.
